## **Type of Hydraulic Baling Machines**

### **Vertically Operated :**

- Rotatable Box, Fixed Cylinder  
Double Box (Twin incasing unit)
- Fixed Box, Fixed Cylinder  
Single Box (incasing unit)
- Fixed Box, Moving Cylinder  
Double Box (Twin incasing unit)  
Single Box (incasing unit)

### **Horizontally Operated :**

- Single Box (incasing unit), additional cylinder for top door

We also manufactured customized Hydraulic Baling machines as per customers requirements. Apart from the standard machines we have made few unique designs and dimensions to meet our customers needs.

## SINGLE BOX HYDRAULIC BAILING MACHINE

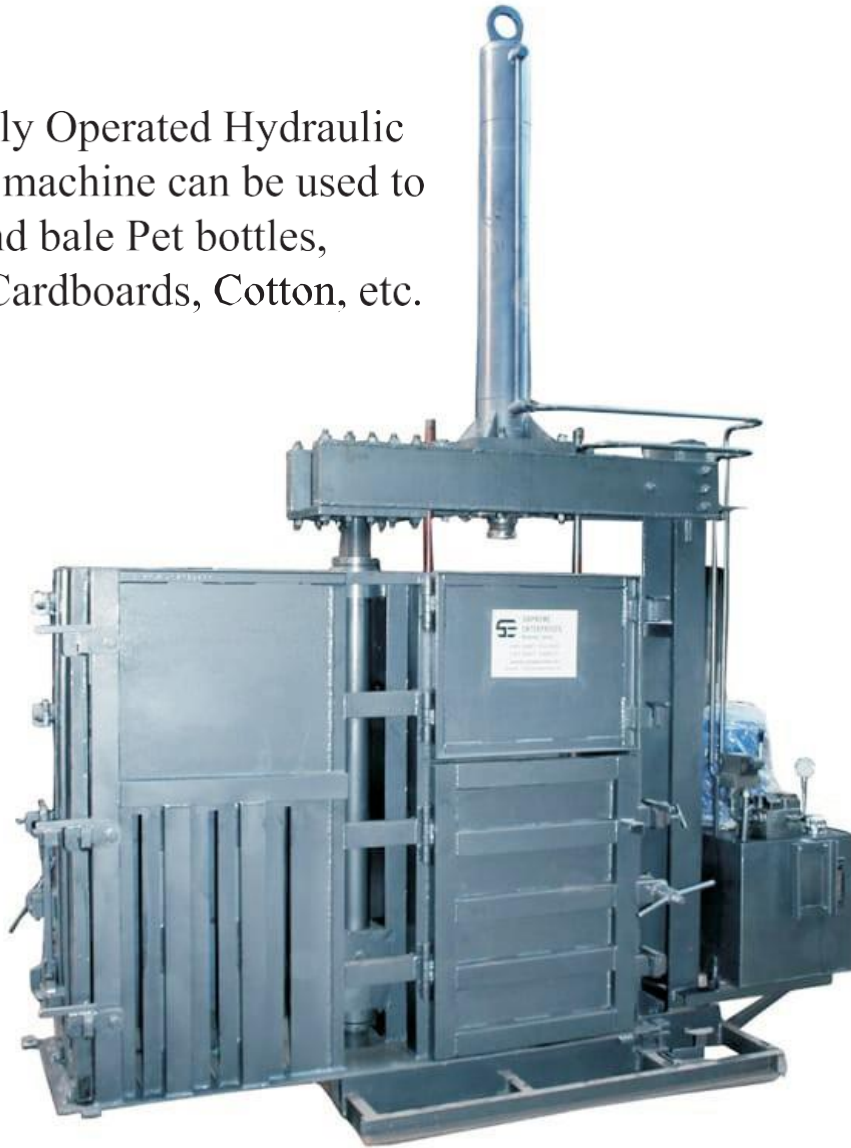

Vertically Operated Hydraulic Bailing machine can be used to press and bale Pet bottles, Paper, Cardboards, Cotton, etc.

| Box Size              | 500 (L) x 700 (W) x 5' (H)                             | 26'' (L) x 32'' (W) x 5' (H)                           |
|-----------------------|--------------------------------------------------------|--------------------------------------------------------|
| Max. Pressure of ram  | 50 Ton / 40 Ton                                        | 50 Ton / 40 Ton                                        |
| Side Plates thickness | 10mm / 8mm                                             | 10mm / 8mm                                             |
| Cylinder Size         | 160 / 110 mm<br>150 / 100 mm                           | 160 / 110 mm<br>150 / 100 mm                           |
| Electric Motor        | 10 HP 3 phase induction motor<br>1440 R.P.M, 380V/415V | 10 HP 3 phase induction motor<br>1440 R.P.M, 380V/415V |
| Oil                   | Included                                               | Included                                               |

## DOUBLE BOX ROTATE HYDRAULIC BAILING MACHINE

Vertically Operated Hydraulic Bailing machine can be used to press and bale Pet bottles, Paper, Cardboards, Cotton, etc.

| Box Size              | 500 (L) x 700 (W) x 5' (H)                             | 26" (L) x 32" (W) x 5' (H)                             |
|-----------------------|--------------------------------------------------------|--------------------------------------------------------|
| Max. Pressure of ram  | 50 Ton / 40 Ton                                        | 50 Ton / 40 Ton                                        |
| Side Plates thickness | 10mm / 8mm                                             | 10mm / 8mm                                             |
| Cylinder Size         | 160 / 110 mm<br>150 / 100 mm                           | 160 / 110 mm<br>150 / 100 mm                           |
